

## Preparing for Sixth Form and Post-16 study

**Subject:     Physics combined**

Key skills in \* **subject** for A-level/Post-16 study:  
More advanced use of maths

Suggested background reading that will help you to understand the context of this subject post-16:

- Useful book/s to read:
- Websites to look at/webpage information to read:  
Classroom texts are quite expensive so I would recommend the official AQA and OCR revision guides , currently retailing at Amazon for £17.25 and £16.20 respectively. Visit the OCR and AQA websites to have a closer look at the exam specification.

Relevant films/videos to watch:

<https://www.youtube.com/watch?v=ayjtBJ0UcqE> ( introduction to maths for A level physics )
